SOIL SAMPLERS

AGRI-SONDE Soil Sampler

A wide range of soil samplers suitable for all types of soil!

Suitable for non-rocky and moist soils, the Agri-Sonde uses only a small quantity of soil for each sampling. As a result, there is no need for sub-sampling. In addition, the depth of sampling is adjustable by steps of 10 cm (10 to 30 cm).

Dimension :
Ø 18 mm
Height 60 cm

IN PRACTICE:
Ideal for samplings in non-rocky and moist soils. It is most suitable for market gardens and green spaces.
